Why we strive to be the best

Growing Stronger

Allcott Hire Pty Ltd is one of Australia's largest privately owned hire companies. With a passion for quality service and a strong community spirit, Allcott Hire is committed to being Australia's leading equipment hire company.

We employ over 200 staff and have in excess of 30 locations in NSW, QLD, ACT and Victoria. Over the past 12 months, we have merged and integrated four companies into one, which enables us to better serve our customers and provide a very extensive range of equipment and services across the Group.

Allcott Hire services The Hunter Region, Newcastle, Central Coast, Sydney and Wollongong in NSW; Brisbane, Gold Coast and Sunshine Coast in Queensland, ACT and surrounding areas, and Melbourne in Victoria. Our future plans include more Victorian branches along with Perth, Adelaide, Darwin and Tasmania.

Allcott Hire has been trading for over twenty five years- formerly as Active Hire Group, and our future is now consolidated. After the recent restructure, Allcott Hire has identified several new opportunities for expansion, which will roll out over the coming months.

We are committed to growth and expansion.

Our range of equipment, already one of the most diverse in the industry, is constantly expanding to cater to our growing customer base in construction, building maintenance, traffic management, compaction, excavation, access equipment, industrial products and our DIY customers, and their ever changing needs.

We pride ourselves on providing the very best service and value for money to all our customers, and with over 30 locations throughout NSW, Queensland, ACT and Victoria, we're never too far away!

Mike Cotter
Managing Director

We pride ourselves on providing the very best service and value for money, to all our customers!

Compaction and Excavation

Allcott Hire stocks a large range of rollers, excavators, bobcats and light compaction equipment to suit the requirements of civil and excavation companies as well as government departments and landscaping contractors.

Small Compaction

For use with gravel and asphalt compaction, light construction and maintenance. Often used on roadways, driveways, car parks, sports fields and landscaping.

Available Products

- 1.5 Tonne Double Smooth Drum Roller
- 2.5 Tonne Double Smooth Drum Roller
- 3.5 Ton Foot Roller
- 4 Tonne Smooth Drum / Pad Foot Roller
- 5 Tonne Smooth Drum / Pad Foot Roller
- Remote Control Trench Roller

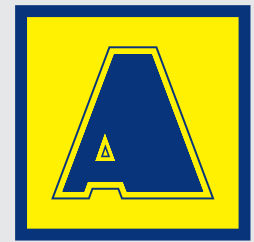

Large Compaction

Used for larger applications such as heavy construction, major road works and motorway construction. Our extensive range of heavy compaction rollers come with enclosed cabs and are air conditioned for operator comfort.

Available Products

- 8 Tonne Smooth Drum / Pad Foot Roller
- 12 Tonne Smooth Drum / Pad Foot Roller
- 15 Tonne Smooth Drum / Pad Foot Roller
- 15 Tonne Smooth Drum VIO Roller
- 18 Tonne Pad Foot Roller
- 20 Tonne Smooth Drum / Pad Foot Roller
- 20 Tonne Multi Tyre Roller

In addition we stock excavators from 1.5 Tonnes to 8 Tonnes with many attachments to cater for your specific needs.

Bobcats

These tough and durable machines are a must have for most building sites. Used for lifting and shifting materials, levelling sites, spreading soil and materials, ripping, digging and boring, and much more. Our small Bobcats are ideal for landscapers and small tight sites whilst our large Bobcats are strong enough to tackle the biggest of tasks.

Available Products

Small – 1.5 Tonne

Large – 2.5 Tonne

Bobcat Sweeper Attachment

Excavators

Excavators come in a range of sizes and can be used in many different applications. All of our excavators are designed to make light work of the toughest jobs and are serviced to the highest standard to ensure efficiency. A large variety of buckets and accessories compliment the various sizes available.

Available Products

1.6 Tonne

Hammer Attachment - 1.6 Tonne

3.5 Tonne

Hammer Attachment - 3.5 Tonne

4 Tonne, 5 Tonne, 8 Tonne

Industrial & Power Generation

Do you have some BIG power requirements? Need a large pump? Need a fence, a prop or a rubbish chute? Allcott Hire Industrial is here to help with all of these products and more. Already our industrial division services many large customers including rail and road authorities, large

Rubbish Chutes

Rubbish chutes are an easy way to transport rubbish and debris from any level of a building. They are able to be attached to scaffold, windows, slabs and can be counterweighted. There are multiple opening points for various floors and hoppers for the top of the chute.

Water Carts

500L and 1000L carts are available. 500L tanks can be trailer or ute mounted. Best used for dusty construction sites, road works, remote watering and fire fighting.

Temporary Fencing

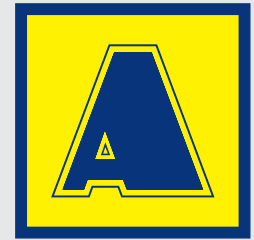

Widely used throughout the construction industry, temporary fencing can also be used for public events, surrounding pits and holes or as a security barrier for building sites.

Cages

Variety of cages include gas cage, rescue cage, brick cage, man lift cage, fork truck cage.

construction companies, production companies and many more. Now established in NSW, ACT, Queensland and Victoria, our Industrial divisions can make any big job seem small!

As one of the newest divisions in the Allcott Hire network, we are constantly expanding our range of products to cater for your growing needs.

Power Generation

Large range of silenced diesel generators are suitable for construction, mining, infrastructure, events, site power, shutdowns and TV productions. Most come with multiple outlets both single and 3 phase. All distribution boards are available in various sizes.

Available Products	
4.5kVa Diesel Generator	100 kVa Diesel Generator
10 kVa Diesel Generator	200 kVa Diesel Generator
20 kVa Diesel Generator	250 kVa Diesel Generator
40 kVa Diesel Generator	375 kVa Diesel Generator
50 kVa Diesel Generator	1250 kVa Diesel Generator
60 kVa Diesel Generator	Distribution Boards
75 kVa Diesel Generator	Leads and Accessories

Props

Available Products	Available in
Strong Boy Props	Designed to hold and support walls whilst working underneath
Titan Props	Designed to hold up to eight times the load as a steel acrow prop

Traffic Management

Allcott Hire is one of Australia's leading suppliers of traffic management equipment to the government and private sectors. Allcott Hire has an enormous range of specialist equipment designed specifically for the traffic control industry. Some of our range includes lighting towers, variable message boards, road liners, traffic signs and water filled barriers. We employ experienced

Lighting Towers

Allcott Hire's lighting towers have been designed and manufactured for use in applications including construction, industrial, road works and civil works. The compact durable design of our towers are the preferred choice for infrastructure such as rail, road, water and energy.

Available Products

- 4000w Lighting Tower
- 6000w Lighting Tower

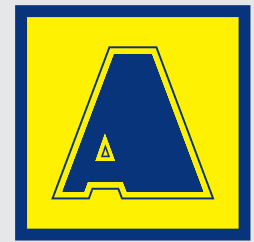

VMS Boards

Widely used by councils, road authorities, traffic management companies, retail and for public or sporting events, variable message signs come in various sizes and configurations. Messages can be updated remotely and given the portable nature of these signs, you can get your message out to almost anywhere.

Available Products

- Small VMS Board - 200
- Medium VMS Board - 300
- Large VMS Board - 400
- Double VMS Board
- Radar Message Board

staff who understand the nature of the dynamic traffic industry and can respond to your requirements when and where you need them. Our fleet is amongst the youngest in Australia and is maintained to the highest of standards to ensure it performs brilliantly at all times, day or night.

Arrow Boards & Traffic Lights

Both used mainly by traffic control companies for roadworks or public events, our traffic lights and arrow boards are solar powered making them very low maintenance. They are also towable making them very flexible. They are able to withstand all weather types and both are very easy to set up and operate.

Road Plates

Road plates come in various sizes from 1.2M x 1.8M to 3.0M and beyond. Used for covering excavated holes/pits, protecting driveways and as traction control for muddy/soft worksites/zones. Able to withstand several tonnes of weight depending on size.

Rumble Grids

Our Rumble grids are able to be pinned together and come in sizes of 3.0M x 2.4M and 3.0M x 3.6M. They are designed to Australian standards to effectively open the tread of the tyre for maximum removal of dirt and mud from cars and trucks.

Ground Protection Mats

Ideal for protecting grass and landscapes from pedestrian and light machinery / vehicles. Also used to protect cables and leads from damage.

Crowd Control - Pedestrian Barriers - Bike Rack Fencing

Excellent for events and for directing or barricading pedestrians, our pedestrian barriers come in solid steel frame (bike rack fencing) and hard plastic panels. Both are relatively light weight and easy to move and are widely used for sporting events, expos, concerts and for public transport stations during large events.

Roadliner and Triton Crash Barriers

Water filled barriers are used to provide a more substantial barrier in circumstances such as road works (speed limits apply and may vary depending on region). These barriers are also used as a stronger deterrent for pedestrian control and with the addition of barrier fencing can provide extra protection whilst working around holes or pits.

General Hire

Allcott Hire boasts one of the widest ranges of hire equipment in Australia. If there is a piece of equipment you require, you can bet Allcott Hire will have it. That is why thousands of customers rely on Allcott Hire everyday for everything from a pump to a jack hammer or an angle grinder to a possum trap! We really do have it all and with
